

Prevention Changes Everything:
Conversations On Abuse and Exploitation Prevention

When: Friday, Apr 29, 2022 from 11:30 AM to 1:00 PM

Where: The Shop 350 E 400 S, 3rd Floor

Salt Lake City, UT 84111

Contact: Terry Palmer: 801-518-1404

To celebrate the culmination of Family Strengthening Month, 3Strands Global Foundation is hosting *Prevention Changes Everything: Conversations On Abuse and Exploitation Prevention*. As part of this event, 3Strands Global Foundation will be hosting a panel to discuss prevention as a way to end exploitation and abuse in UT. The panel will consist of diverse voices from the community. These voices include a survivor of human trafficking who is now leading anti-trafficking efforts in Utah, a member of Utah's Internet Crimes Against Children Task force, the CEO and Founder of 3Strands Global Foundation, and a human trafficking specialist from Granite School District who is a mom and former teacher.

3Strands Global Foundation will be presenting an award to the Jordan School District Transportation Department for recognizing their role and dedication to keeping youth safe before and after school. When the bus drivers of the Jordan School District were trained in PROTECT, a 3Strands Global Foundation human trafficking prevention program, they provided dozens of stories highlighting their commitment to keeping the youth of Jordan School District safe. These stories have inspired not only other bus drivers but school staff across the country to take on the crucial role of protecting students.

3Strands Global Foundation will also recognize Missy Larsen and doTERRA for their commitment to ending human trafficking through the support of the PROTECT Prevention Education Program.

3Strands Global Foundation is a local anti-Trafficking non-profit organization that focuses on prevention through education. The organization has been training school staff in the state of Utah since 2020 on human trafficking prevention, reaching over 41,500 school staff members in the state of Utah and over 85,000 adults nationwide. PROTECT is being utilized in 75% of all Utah schools statewide.
